# Maize Varieties 2016

## Augustus

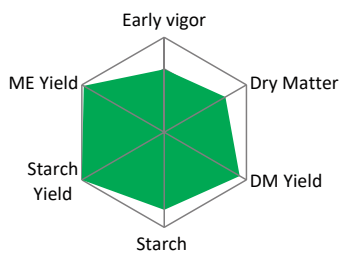

Equal in most respects to Emmerson, higher yielding in 2014, less so in 2015. Cobs well covered from exposure, good starch yield. Strong thick crop. Ultra-early.

## Emmerson

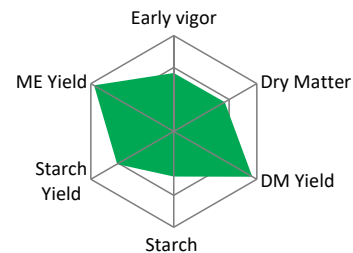

For two seasons the earliest to mature in our set of trials. Yields consistent with being so early, starch yield high. Vigorous to grow away, quick to tassling. Ultra-early

## Glory

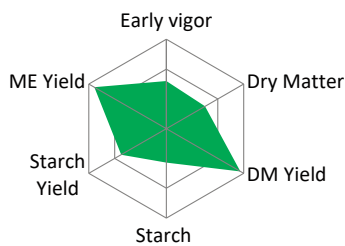

Vigour, starch, yield and digestibility are all first class. The best variety all round. Packs high ME performance.

## Oxxgood

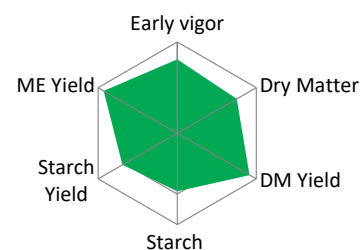

Big yields of highly palatable crop. Good disease resistance. With well filled large cobs produces a high ME crop. Strong early vigour.

## Autens

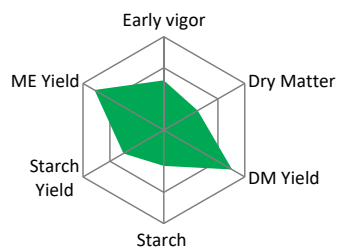

A new variety that will appear on the NIAB list in 2018, it will give exceptional yield with good quality. It will be of similar maturity to Severus.

## Equity

This is the crescendo replacement, it will not appear on the NIAB list until 2019, it will give earliness and yield with good all round quality and disease tolerance.

## Nordicstar

Slightly later maturity but with good all round figures. Sow on a favourable site. Ideal for high percentage feeding. Good eyespot tolerance.
