

PEARCE SEEDS TRIALS

WINTER BARLEY TRIALS 2017

We select varieties for the specific requirements of the South West: High Specific Weight, resistance to Rynchosporium, Net Blotch and BaYMV

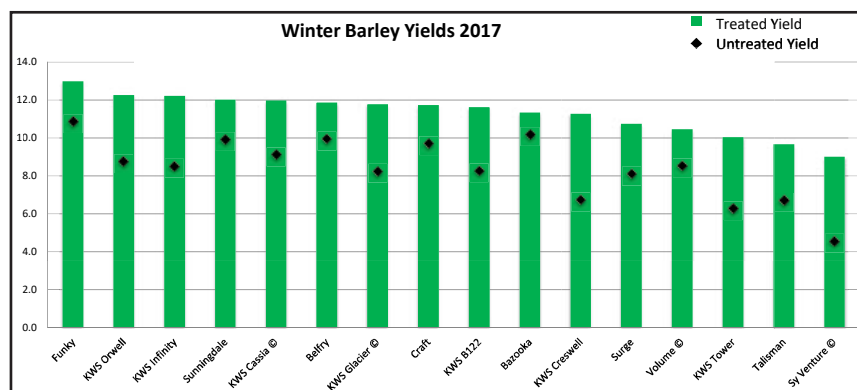

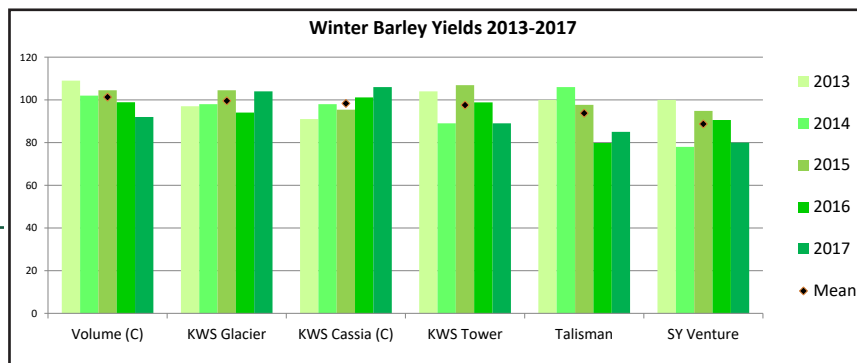

Conventional

KWS Orwell

- Highest yielding two row on the RL list
- Short, very stiff straw.
- BaYMV resistant Strain 1

KWS Cassia

- Two row feed with good yield and strong untreated yield.
- High lodging resistance.
- High resistance brown rust score.
- BaYMV resistant Strain 1.

Hybrids

Volume

- Still the most popular hybrid on farm
- Top consistent yields over the years
- Excellent disease resistance
- Long stiff straw

Bazooka

- New to the RL list 2016
- Topped Pearce trials this year
- Taller than Volume but with higher resistance to lodging
- The new hybrid of choice

Sunningdale

- Added to RL list 2017/18
- Very high yields in all regions
- High Rhynchosporium resistance
- BaYMV resistant Strain 1
